https://leetcode.com/u/Noman2324/

SKILLS

- **Backend**: Node.js, Express.js, MongoDB, RESTful APIs
- **Frontend**: React.js, JavaScript, HTML, CSS, Bootstrap
- **Core Concepts**: Basic OOP (Object-Oriented Programming)
- **Tools**: Git, GitHub

EDUCATION

Mahatma Jyotiba Phule Rohilkhand University

- Bachelor of Computer Applications (BCA) | Expected Graduation: 2024
- CGPA: 6.59 / 10.0 | Percentage: 62.64%

PROJECTS

Airbnb Clone – Full-Stack Web Application

- Built a Node.js, Express.js, and MongoDB backend with RESTful CRUD operations.
- Built a Node.js, Express.js, and MongoDB backend with RESTful CRUD operations.
- Enabled users to create/update/delete property listings (title, description, images, price) and reviews.
- Integrated error handling on both frontend and backend for seamless UX.
- **GitHub**: https://github.com/Noman1221/AirBnbProject|
- **Demo**: https://airbnbproject-ogme.onrender.com/listings

Quiz Web App

- Developed a frontend application using HTML, CSS, and JavaScript to test users with IT-related questions.
- Features dynamic UI, scoring system, immediate feedback, and local storage for saving progress.
- Fetched questions from a public API.
- **GitHub**: https://github.com/Noman1221/Quiz_App

Simon Says Game

- Created an interactive game using vanilla JavaScript, HTML, and CSS to

replicate the classic Simon memory game.
- **GitHub**: https://github.com/Noman1221/Practice_Projects

ACHIEVEMENTS / HOBBIES

Achievements:
- Completed 50+ days of continuous coding on LeetCode (Top 6.9% in 2024).
- Delta Full-Stack Development Certification.

Hobbies:
- Sports: Enjoy volleyball and cricket; emphasize teamwork and strategy.
- Fitness: Regular gym workouts to maintain discipline and a healthy lifestyle.
